

# START the CONVERSATION... Income Protection

## What are the chances...

Did you know that according to Pew Research, women are the primary or only breadwinner in 40% of households with children under age 18?

She brings home the bacon,  
She's the heart of the home.  
What if she gets sick?

Women need paycheck  
protection too!

Both Men and Women Need  
Income Protection!

Ask your Broker... Chances are  
it's cheaper than you think!

A typical woman, age 35, 5'4",  
125 pounds, non-smoker, working  
mostly in an office environment  
Is at the following risk:

- A 24% chance of becoming disabled for 3 months or longer during her working Career.
- And a 38% chance that the disability would last 5 years or longer.
