

# START the CONVERSATION... Return of Premium

Are you a business owner that needs Life Insurance and can pay the premium with business assets?

Life Insurance can serve a specific purpose such as:

- A loan for collateral
- A buy-sell agreement
- A retirement plan
- An executive benefit/perk
- Or for traditional insurance needs

**...what if you could get all that money back!**

You could purchase a term policy (20 or 30 years) and IF YOU DO NOT DIE you would receive 100% of the cumulative premiums they paid back-in a lump sum check.

Just one example of how we can help you  
in growing your business!

Call us for more  
information today!
